

The Association for Corporate Health Risk Management Consultant Application

The Association for Corporate Health Risk Management (ACHRM) is a unique employer community where employers collaborate with their peers, learn new methods and techniques to reduce their company's health care costs, implement or improve quality healthcare programs, and improve employee well-being and productivity.

ACHRM offers employers virtual opportunities to engage in cutting edge projects and strategic initiatives to develop solutions for containing healthcare costs and better managing their health risk. Periodically ACHRM shall offer educational programs including, roundtables, webinars, and other events.

As a former CFO, COO, and Corporate Risk Manager, I understand the challenges of developing and maintaining a budget while finding more effective strategies to reduce healthcare costs and enhance employee benefits. The Association for Corporate Health Risk Management offers a venue to develop solutions for your health risk management challenges by launching pilots, publishing case studies and articles, introducing best in class solution providers, and creating a collaborative environment with your peers. Currently, we have about 30 committees and strategic initiatives executing our Nine-Pronged 2024-25 Strategic Plan (see below).

As an educator and facilitator, ACHRM's the only national association promoting the benefits of engaging an independent non-insurance carrier third party administrator (TPA), pharmacy benefit managers (PBM), and other resources. Not only does rethinking your firm's self-funding methodology benefit your bottom line, employees, but also medical professionals.

ACHRM interviews hundreds of vendors annually, but only selects a few forward-thinking, innovative, disruptive solution providers to become Sponsor Partners. Our community offers a dynamic opportunity for our Sponsor Partners to design, participate unique cutting-edge pilots, case studies, demonstration projects among other strategic initiatives.

The consultants in ACHRM's community, including PBM consultants, health insurance broker/consultants, among other advisors benefit from participating in our strategic initiatives, and joining our educational panels.
